QAPP Addendum 01 - Bridgeton Dust Site.pdf
2017079memosignedQAPP.PDF

Good Afternoon Mr. Lewis,

I wanted to briefly follow up on our communications last week. First, attached is an addendum to the residential sampling QAPP that reflects a modification to the wipe sample collection procedures. Second, I'd like to confirm whether you and your team will be traveling to Kansas City next week for a meeting to discuss EPA's residential sampling effort. I believe last week you mentioned January 9th depending on your consultant's availability. Please advise if you are still looking at this date and who your attendees will be.

Regards,

Alyse
